

Stop Copper Theft **NOW**

TOTALLY Wireless video security over the mobile network.

Motion activates the integrated night vision camera and sends a 10 second video of the intruder over the mobile network to the monitoring station and the site manager. Police respond faster to crimes-in-progress.

Motion Sensor

Night Vision Camera

Infrared Illuminators

Videofied delivers apprehensions instead of just recorded video of yesterday's crimes.

No A/C Power

- > Operates for months on a set of batteries
- > All weather -20°F to 140°F
